PROFESSIONAL SUMMARY

Senior Front End Developer with 5+ years of experience building scalable and responsive web applications using **React.js**, **Next.js**, **Vue.js**, and **Angular.js**. Proven experience developing enterprise systems for logistics, IoT, and internal management platforms, including an 80+ module admin dashboard. Skilled in translating UI/UX designs into high-performance interfaces, integrating RESTful APIs, and collaborating with cross-functional teams in Agile (Scrum) environments.

CORE SKILLS

Frontend Technologies: React.js, Next.js, Vue.js, Angular.js (AngularJS), HTML5, CSS3, JavaScript (ES6+), TypeScript

UI Frameworks & Styling: PrimeReact, Ant Design, Bootstrap, Tailwind CSS, styled-components

State Management: Redux Toolkit, Redux Saga, Reselect, Vuex

Maps, Charts & Documents: Google Maps API, React Leaflet, MQTT, amCharts, Chart.js, ApexCharts, jsPDF, xlsx (Excel export)

Architecture & API: Route-based code splitting, component-based design, reusable UI systems, RESTful APIs, react-intl (i18n)

Tools & Services: Git, Figma, Postman, OneSignal (push notifications), Vite, WordPress

Methodologies & Soft Skills: Agile (Scrum), code review, mentoring, team collaboration, problem-solving, communication

WORK EXPERIENCE

Smart IT Indonesia — Front End Developer

Oct 2021 – Sep 2026 | Full Time | Surabaya, East Java, Indonesia

- Frontend development for enterprise applications including **ORIN Logistics Platform**, **Admin ORIN Panel**, **Seller ORIN Panel**, and **KAMSELINDO system** using React.js and Next.js.
- Led frontend development of **Admin ORIN Panel — an 80+ module enterprise dashboard** (orders, sales orders, invoicing, sellers, partners, IoT device monitoring) built with **Redux**, **redux-saga**, and **reselect** on a route-based code-split architecture.
- Built geospatial features with **Google Maps**: real-time device tracking with marker clustering and route polylines, plus operational dashboards using amCharts and Chart.js.
- Implemented document generation (**PDF invoices via jsPDF**, **Excel exports via xlsx**) and push notifications with OneSignal.
- Designed and implemented scalable, reusable UI components based on Figma designs and business requirements.
- Improved application performance and usability through pagination, route-level code splitting, and component optimization, reducing UI-related issues and improving load time.
- Collaborated closely with backend engineers, UI/UX designers, and product teams in Agile (Scrum) development cycles.
- Provided technical guidance and code reviews for junior frontend developers to maintain code quality and best practices.

Tools: React JS, Next JS, Redux Saga, Google Maps, Figma

Wowrack Indonesia — Front End Developer

Jun 2020 – Nov 2020 | Full Time | Surabaya, East Java, Indonesia

- Developed frontend interfaces for IoT management platforms using Vue.js.
- Translated UI/UX designs into responsive and user-friendly web applications.
- Participated in feature planning and UI improvements to enhance user experience.

Tools: Vue JS

Smart IT Indonesia — Front End Developer

Nov 2018 – May 2020 | Full Time | Surabaya, East Java, Indonesia

- Built and maintained web applications such as **UPFIELD logistics system** and **FINDSTOCK stock analysis platform** using React.js and Angular.js.
- Enhanced UI/UX through responsive layouts, improved navigation, and performance optimization.
- Integrated backend APIs and resolved UI bugs to ensure stable and scalable applications.

Tools: Angular JS, WordPress, React JS

Track ID — Android Developer

Aug 2018 – Sep 2018 | Full Time | Surabaya, East Java, Indonesia

- Developed and maintained Android Native application features.
- Worked closely with product and business teams to improve usability.

Tools: Android Studio, Android Native

KEY PROJECTS

ORIN — Logistics & Fleet Management Platform

Link: <https://app.orin.id/> | **Tools:** Next JS, Redux Toolkit, Redux Saga, MQTT, React Leaflet, Google Maps, Ant Design, Tailwind CSS

- Fleet management and GPS tracking platform: real-time vehicle monitoring over **MQTT**, live camera streaming (FFmpeg), geofencing with violation alerts, and route replay.
- Reports and analytics for trips, fuel, temperature, and incidents, visualized with Chart.js, ApexCharts, and D3.js.

Admin ORIN Panel — Internal ERP Dashboard

Link: <https://admin.orin.id/> | **Tools:** React JS, Redux Saga, PrimeReact, Google Maps, amCharts, jsPDF

- Used by internal employees across the ORIN logistics ecosystem — 80+ modules covering orders, invoicing, seller/partner management, and real-time IoT device monitoring.
- Multilingual UI (react-intl), role-based access control, PDF invoice templates, and Excel reporting.

Seller ORIN Panel — Seller Portal

Link: <https://seller.orin.id/> | **Tools:** React JS, Redux Saga, PrimeReact, styled-components

- Seller-facing portal for placing and tracking orders, invoices, commissions, withdrawals, and GPS/IoT device monitoring.

TMS ZEND — Transportation Management System

Link: <https://tms.zend.id/> (web), <https://i.zend.id/> (mobile web) | **Tools:** React JS, Redux Saga, Google Maps, ApexCharts, FullCalendar

- Shipment and task management with **barcode/QR scanning** via web camera, gate checking, driver and fleet operations, and live tracking on Google Maps.

FINDSTOCK — Stock Analysis Platform

Link: <https://findstock.io/> | **Tools:** Angular JS, jQuery, Bootstrap, CanvasJS, Gulp

- Web-based stock analyst tool for the Indonesian market: stock screener, interactive price charts, backtesting, trading signals, and subscription payments.

EDUCATION

Bachelor's Degree (D4) in Informatics Engineering

Feb 2019 – Oct 2021 | Electronic Engineering Polytechnic Institute of Surabaya — GPA 3.56

Associate's Degree (D3) in Informatics Engineering

Aug 2015 – Aug 2018 | Electronic Engineering Polytechnic Institute of Surabaya — GPA 3.43

LANGUAGES

Indonesian (native) | English (professional working proficiency — TOEFL certified)
