JOB APPLIED FOR

Front End Developer

PROFILE

Summary

Senior Front End Developer with 5+ years of experience specializing in building scalable and responsive web applications using **React.js**, **Next.js**, **Vue.js**, and **Angular.js**. Proven experience in developing enterprise systems for logistics, IoT, and internal management platforms. Skilled in translating UI/UX designs into high-performance interfaces, integrating RESTful APIs, and collaborating with cross-functional teams in Agile environments.

WORK EXPERIENCE

August 2018 – September 2018

Track ID

Android Developer – Full Time. Surabaya City East Java Indonesia

- Developed and maintained Android Native application features.
- Worked closely with product and business teams to improve usability.

Tools : Android Studio, Android Native

November 2018 – Mei 2020

Smart IT Indonesia

Front End Developer – Full Time. Surabaya City East Java Indonesia

- Built and maintained web applications such as **UPFIELD logistics system** and **FINDSTOCK stock analysis platform** using React.js and Angular.js.
- Enhanced UI/UX through responsive layouts, improved navigation, and performance optimization.
- Integrated backend APIs and resolved UI bugs to ensure stable and scalable applications.

Tools : Angular JS, Wordpress, React JS

Juni 2020 – November 2020

Wowrack Indonesia

Front End Developer – Full Time. Surabaya City East Java Indonesia

- Developed frontend interfaces for IoT management platforms using Vue.js.
- Translated UI/UX designs into responsive and user-friendly web applications.
- Participated in feature planning and UI improvements to enhance user experience.

Tools : Vue JS

Oktober 2021 – Now

Smart IT Indonesia

Front End Developer – Full Time. Surabaya City East Java Indonesia

- Frontend development for enterprise applications including **ORIN Logistics Platform, Admin ORIN Panel, Seller Panel, and KAMSELINDO system** using React.js and Next.js.
- Designed and implemented scalable, reusable UI components based on Figma designs and business requirements.
- Integrated RESTful APIs for logistics operations, order management, and IoT device monitoring modules.
- Improved application performance and usability by implementing pagination, and component optimization, reducing UI-related issues and improving load time.
- Collaborated closely with backend engineers, UI/UX designers, and product teams in Agile (Scrum) development cycles.
- Provided technical guidance and code reviews for junior frontend developers to maintain code quality and best practices.

Tools : React JS, Next JS, Figma
